Dear Ms. Neville:

Thank you for providing the opportunity for the Division of Oil, Gas and Mining's Mining programs to visit KUCC's Inland Sea Shorebird Preserve last month. We very much enjoyed the orientation and explanation of all that goes into keeping a mitigation project operational. We also appreciated the bird watching guidance afforded by yourself and your intern. And, the light wind was especially a treat to keep the horseflies at bay! We were quite impressed with your dedication to the mitigation project for the North Tailings expansion. We all came away with a better understanding of the ecology of the Great Salt Lake as a result of our visit.

Again, thanks for allowing us the opportunity to visit KUCC's premier mitigation project.

Sincerely,

Mary Ann Wright
